FACULTY OF SCIENCE  
**IBN ZOHR UNIVERSITY**  
**AGADIR MOROCCO**

---

**Professor BAZZI LAHCEN**

Associate Member of Applied Physical Chemistry Team

Specialty : Chemical-Physics Research axis : Interfacial Electrochemistry and Environmental Applications.

Lahcen BAZZI received a postgraduate doctorate degree from Mohamed V University of Rabat in 1987 and a PHD in 1995 from Ibn Zohr University of Agadir, Morocco. He is a co-author of 200+ research publications and presented several communications in symposia and national/international meetings in subjects related to Interfacial Electrochemistry and Applications such as:

- Electrodeposition of electrocatalytic thin films - Application for électrodégradation of organic pollutants.
- Green corrosion inhibitors (Medicinal and Aromatic Plants): Application for corrosion protection of metallic materials.
- Metallic and Bacteriological pollution of seawater. Impact of the biofilm formation on the corrosion resistance of metallic materials.
