Professor **Dr. RAJENDRA S. DONGRE**, is a Professor of Chemistry in Department of Chemistry, Sciences at the University of RTM Nagpur University, Nagpur-33, MS., India. (2003), Bachelor of Science in Education (Chemistry) University of RTM Nagpur University, Nagpur-33, MS., India (1994) and graduated with a Master's degree in Chemistry from the University of RTM Nagpur University, Nagpur-33, MS., India (1996). Professor Rajendra Dongre is an Academic of the University of RTM Nagpur University, Nagpur-33, MS., India (2003) & since 2003 and belongs to the Department of Chemistry RTM Nagpur University, Nagpur-33, MS., India of the Faculty of Chemistry of the same.

His areas of research are the designing, synthesis and the spectroscopic and analytical characterization of organic/uracil/pyridopyrimidines/heterocyclic (1996-2023), and bio-composites (Chitosan based) compounds (2010-2023/to date). He has published around 84 research papers in indexed/peer reviewed journals and around 10 presentations in national and international congresses/conferences/workshops of the specialty. Within his research domain he has directed 08 theses and has been a regular thesis evaluator and research projects.

Since 2003 he has taught post-graduate in the subjects of organic, environment & medicinal chemistry. Producing notes, lab handouts, exercise guides, and online courses. During these years he has been a sponsor Professor of students in professional practice, postgraduate seminar. He has participated in the modification and creation of career studies programs as placement officer & extension courses. He had participated as a main researcher/investor of two research projects. Four research students completed PhD under his supervision and eight research students are working under his guidance currently

Professor Rajendra S. Dongre is in constant professional updating, participating in numerous courses in innovative research in developing technologies in chemical sciences. His expertise domain were recognized by Government of India by 6th National Award for Technology Innovation in Petrochemicals & Downstream Plastics Processing Industry, 20/01/2016 as well as private organization by awarding in 2018 for outstanding performance in his academic and research and development activities.
