**DEPARTMENT OF
CHEMISTRY AND EARTH
SCIENCES AND QATAR
UNIVERSITY, BO-BOX 2713-
DOHA – QATAR.**

PROF. DR. ISMAIL WARAD

Dr. Ismail Warad is currently Full Professor/Department of Chemistry and Earth Sciences - Qatar University. He obtained his BSc in Applied Chemistry (1995) and MSc in physical Chemistry (1998) from the An-Najah University, Palestine. He got his Ph.D. in Organometallics from Tübingen University in 2003. 2003-2005 he worked in Chem. Dept. from Tübingen University. 2005-2011 he moved to work as asst. prof. in King Saud University-KSA. 2011-2018 he moved to work as full prof. in An-Najah University-Palestine. In 2016 he promoted to Distinguished full professor.

His current research is in preparing novel complexes of organic ligands and transition metal ions and investigating their use in catalysis, anticorrosion and chemotherapy. His research skills include but not limited to use of XRD single crystal, FT-IR, UV-Vis, NMR, high vacuum systems, GC-MS, TEM, and SEM.

Moreover, he published more than 300 papers, 5 patents and two books. he supervised more than 30 graduated students in Germany, India, KSA and Palestine. As one can see from my publications, He has very strong international collaborations with India, Spain, German, Morocco, Jordan, KSA, Portugal and Algeria.

He got many awards

2003 Graduatedcolluge GK from TU-Germany
2005-2011 excellence in scientific 6 times from KSU-KSA.
2011-2018 excellence in scientific 8 times from NNU-Palestine.

2019 Shoman Award for Arab Researchers.
